

PRESS RELEASE

Arval launches My Arval Mobile to enhance the digital experience of its drivers

Arval launches a new version of My Arval Mobile app for fleet vehicle drivers. More user-friendly, more contemporary and closer to user needs, this app offers a completely new experience by introducing new functions to access the range of Arval services.

The app is now more intuitive, more dynamic and easier to use, offering functions tailored to driver mobility needs: responsiveness, time-saving and optimised organisation.

The key functions of the app are:

- **My vehicle:** the full range of practical information about the car, including its model, registration number, fuel consumption, contract end date, vehicle return procedure, etc.
- **Around me:** geolocation and a search function for the nearest Arval service partner across the full range of services, from maintenance and body repairs to fuel, tyres and much more.
- **My services:** a reminder of all the services included in the contract (insurance, maintenance and roadside assistance), the full list of service partners and direct access to Arval support if a driver needs it.
- **My digital wallet:** instant availability of vehicle documentation (registration document, Arval card, driving licence, etc.).

My Arval Mobile will be **regularly updated to add new functions** that make life simpler for drivers. For example, the app may offer direct payment for fuel, the location of nearby parking spaces and other similar features in the future. With My Arval Mobile, the driver is placed at the center of Arval strategy by offering him more services to improve his experience.

The My Arval Mobile app can be downloaded for iOS and Android devices. Drivers who already have the old version can simply update it.
