Short-Term Rental

The completely flexible vehicle option

We understand business car and van rental like few others.

We know the process of ordering a vehicle needs to be fast and easy, with flexible delivery and collection options to business and home addresses, whilst meeting the needs of your fleet.

To deliver on these principles, we have access to a network of more than 750 delivery points across the country operating 120,000 cars and 70,000 light commercial vehicles, meaning we can generally meet your specific requirements. As you would expect, all are maintained to the highest standards.

Our costs are clear and transparent with Road Fund Licence included and there is reduced financial risk with our limited "No Loss of Use" charging policy which ensures Loss of Use charges only apply to specialist vehicles, write offs and thefts. Invoicing is also consolidated for greater control over your rental spend.

We will even help you track and understand the different reasons for your rental bookings and how they fit into your overall fleet management strategy, helping you to make sure that you are only booking vehicles when they are really needed.

When it comes to short-term rental, Arval has the know-how to keep your business and your drivers moving.
