Taxonomy

Taxonomy are accessible here:

Structure > Taxonomy

Search the taxonomy you want to edit or create and click on "List terms":

Click on edit to modify an existing Taxonomy:

Or click on "Add term" to create one:

Webstore

You may encounter the following field:

It can only be apply for website with **webstore**. This field is not mandatory.

When an offer is import from the webstore the following taxonomy are automatically created in the back-office:
-
  - Apollo - Brand model
  - Apollo - Fuel Type
  - Apollo - Offer transmission type
  - Apollo - Option/category-topic
  - Apollo - Vehicle category
  - Apollo - Offer Duration
    Apollo - Offer Mileage

Summary

Apollo - Brand model

"Apollo - Brand model" taxonomy are used to create and define the offer brand and model.

It is also use to create brand pages like below with offers slider.

Citroën is a French automobile manufacturer, part of the PSA Peugeot Citroën group since 1976, founded in 1919 by French industrialist André-Gustave Citroën (1878–1935). In 1934, the firm established its reputation for innovative technology with the Traction Avant. This car was the world's first mass-produced front wheel drive car, and also one of the first to feature a unitary type body, with no chassis supporting the mechanical components.

CHOOSE THIS OFFER

A brief and concise summary of the page's content, preferably 150 characters or less. Where as the description meta tag may be used by search engines to display a snippet about the page in search results, the abstract tag may be used to archive a summary about the page. This meta tag is *no longer* supported by major search engines.

Apollo - Fuel Type

"Apollo - Fuel type" taxonomy are used to create and define the fuel type of offers.

Necessary fields:

Number	Title	Description
1	Site	Select the desire country you are working on Example: DK
2	Name	Name of the fuel
3	Description	Not used

Apollo - LCV - Number of seats

"Apollo - LCV - Number of seats" are used to create and define the number of seats in a offer model.

It is only apply to the Vans solution offer (LCV).

Necessary fields:

Number	Title	Description
1	Site	Select the desire country you are working on Example: DK
2	Name	Number of seats
3	Description	Not used

Apollo - LCV - Segment

"Apollo - LCV - Segment" are used to create and define the work activity for the Van solutions filters.

It is only apply to the Vans solution offer.
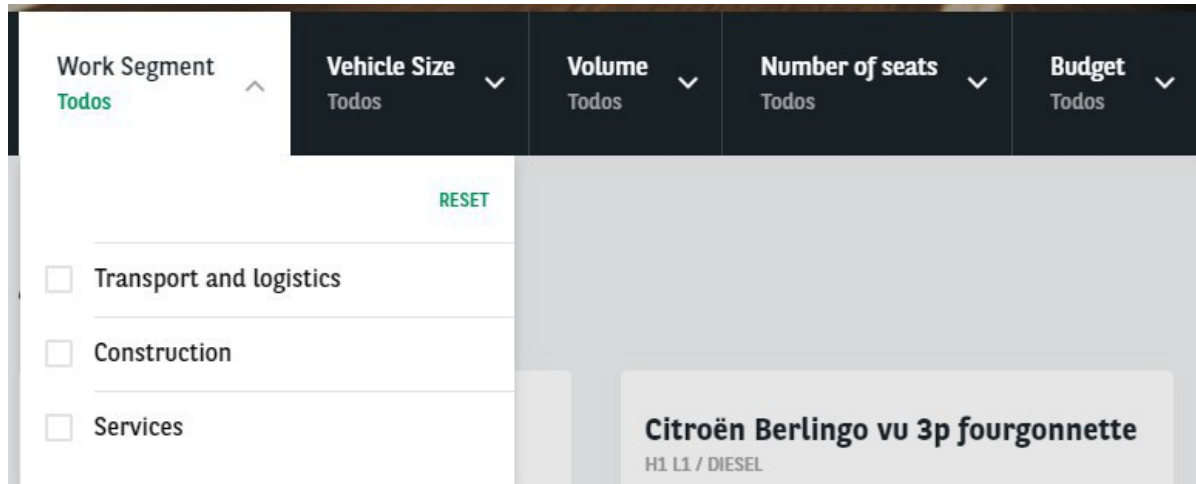

Necessary fields:

Number	Title	Description
1	Site	Select the desire country you are working on Example: DK
2	Name	Work space / Activity
3	Description	Not used

Apollo - LCV - Size

"Apollo - LCV - Size" are used to create and define the size of a vehicle for LCV.

It is only apply to the Vans solution offer (LCV).

Necessary fields:

Number	Title	Description
1	Site	Select the desire country you are working on Example: DK
2	Name	Size format of the vehicle
3	Description	Not used

Apollo - LCV - Volume

"Apollo - LCV - Volume" are used to create and define the volume of a vehicle for LCV.
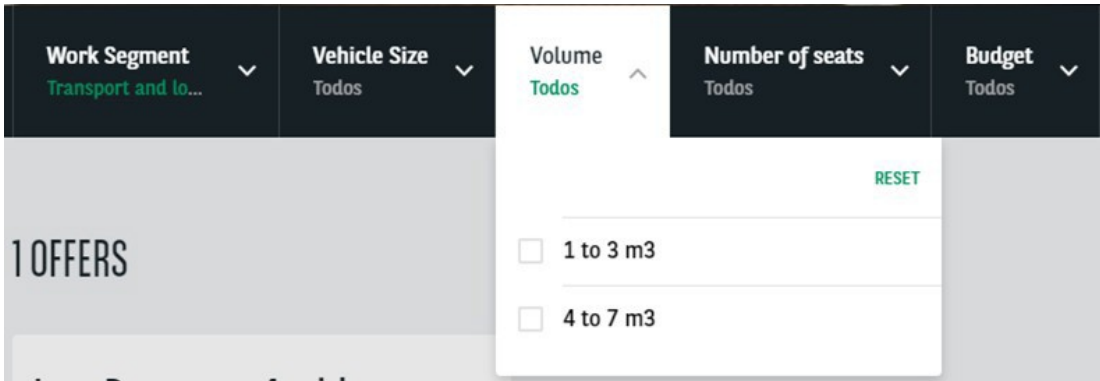

It is only apply to the Vans solution offer (LCV).

Necessary fields:

Number	Title	Description
1	Site	Select the desire country you are working on Example: DK
2	Name	Volume of the vehicle
3	Description	Not used

Apollo - Marketing Flag

"Apollo - Marketing Flag" are used to create and define an information flag on the offers.

Necessary fields:

Number	Title	Description
1	Site	Select the desire country you are working on Example: DK
2	Name	Volume of the vehicle
3	Lead campaign ID	Use to define a campaign ID with saleforce tracking
4	Description	Not used
5	Color code background	Define the color of the flag
6	Start & End date	Define the appearance duration of the flag
7	Offer page banner	Put a banner on the offers with the marketing flag

A brief and concise summary of the page's content, preferably 300 characters or less (150 char length could be the best choice). The description meta tag may be used by search engines to display a snippet about the page in search results.

Apollo - Offer Duration

"Apollo - Offer Duration" taxonomy are used to create and define the available duration of offers.

A best pratice when creating duration taxonomy is to create one for each offer type. In that case it will be easier to find which duration if define for which offer type.

Letter taxonomy must not have any offer type defined. Let's see that in the next paragraph.

Necessary fields:

Number	Title	Description
1	Site	Select the desire country you are working on Example: DK
2	Name	Number of months
3	Description	Not used
4	Offer type	Define for which offer type the duration if for (LTR, MTR, LCV)

Further details

We can have the same duration type on different offer type:

But one is define on LTR offer type and the other on LCV offer type.

Make sure that the taxonomy use for the order are set as"None":

It will be the same for the offer list page.They must be assigned to an offer type:
